CAREER PLANNING & DEVELOPMENT CENTRE

ABOUT DEPARTMENT

The Engine Behind Career
Excellence

The Career Planning and Development Centre (CPDC) will stand as a key pillar of the future University, shaping a strong ecosystem of employability, innovation, and industry readiness. It will act as a dynamic bridge between academic excellence and professional success, ensuring that students graduate with the skills, confidence, and adaptability required in a rapidly evolving global workforce.

In the future University framework, CPDC will not simply facilitate placements; it will cultivate career readiness from the very beginning of a student's academic journey. Through structured training, mentorship, and continuous skill development, the centre will nurture students to become competent professionals capable of meeting industry expectations.

CPDC will function as an integrated platform where career training, industry collaboration, internships, certification programs, and placement support converge. The centre will also promote learning in emerging technologies such as Artificial Intelligence, Cloud Computing, Cyber Security, Data Analytics, and Digital Innovation.

By fostering strong partnerships with industries and focusing on future skills, CPDC will transform students into confident, industry-ready graduates. It will play a vital role in building a university culture where education, innovation, and career success move forward together.

Mission

To Create Self-Reliant,
Industry-Ready
Professionals Capable
Of Competing At
National And Global
Platforms.

Vision

To Integrate Academic
Learning With
Structured Career
Planning, Skill
Enhancement,
And Corporate
Engagement, Ensuring
Every Student
Graduates With
Clarity, Competence,
And Confidence.

MESSAGE FROM THE PRO-VICE CHANCELLOR

In today's dynamic and competitive global landscape, higher education must move beyond theoretical instruction and actively align with industry expectations, technological advancements, and professional realities. At our University, corporate engagement is not a peripheral activity—it is a strategic commitment embedded within our institutional vision. As Pro-Vice Chancellor overseeing Corporate Engagement and Industry Collaboration, my priority is to strengthen meaningful partnerships with leading corporations, financial institutions, technology enterprises, and emerging startups to ensure that our students graduate not only with degrees, but with industry-relevant competence and professional confidence. Through structured industry MoUs, corporate mentoring initiatives, expert lectures, internships, live projects, and continuous skill enhancement programs conducted by the Career Planning and Development Centre, we create a seamless integration between academic learning and workplace demands. Our placement outcomes are the result of sustained corporate relationships, systematic training frameworks, and an unwavering focus on employability excellence. We remain committed to developing professionals who are prepared to contribute from day one, adapt to evolving industry challenges, and lead with integrity in national and global markets. I extend my sincere appreciation to our corporate partners for their continued trust and congratulate our students whose dedication transforms opportunity into achievement. Together, we continue to build strong industry collaborations and shape careers that define success.

Prof. Anubhav Singh
Pro-Vice Chancellor
